ABOARD ROYAL TRAIN, Canada, June 12.—King George and Queen Elizabeth were once more back on Canadian soil today for four concluding days of receptions and ceremonies far more rigorous than the pleasant week-end of informality they spent at the Roosevelt estate in Hyde Park.

Delson, Quebec, was the first stop scheduled for the gleaming royal blue and silver train after its departure last night from the red brick railroad station at Hyde Park.

Left U. S. At 6 A. M.

The royal train left American soil at about 6 a. m. this morning at Rouse's Point, N. Y.

The first of the concluding round of royal ceremonies was scheduled for Sherbrooke, Quebec, where the King and Queen will hold an hour-long reception for their bowing and curtsying subjects.

The British rulers were well relaxed and rested for their final arduous duties after the Hyde Park picnic where they partook with royal gusto of the hot-dogs and other peculiarly American accoutrements prepared by the Roosevelt household.

To Depart Thursday

Except for a brief stopover at Delson and another at Levis, opposite Quebec, and the reception at Sherbrooke, the royal party will spend the remaining days of their sojourn on this side of the Atlantic touring the three provinces which they did not visit on the first part of the Canadian trip. These are New Brunswick, Prince Edward Island and Nova Scotia.

On Thursday night, their majesties will board the liner Empress of Britain at Halifax for the return voyage to England.

Wampum Rotarians
Get Charter Tonight

New Castle and Ellwood City Rotarians will join tonight for the charter night dinner celebration of the new Wampum Rotary club in Wampum.

The Ellwood City club sponsored the organization of the new group and will conduct tonight's program.

Lowell Monroe, borough manager of Ellwood City, and secretary of the Ellwood club, said tonight's program will take the place of the regular Thursday night meeting of the Ellwood club.

Dr. Robert F. Galbreath, president of Westminister college, has been elected to the new Castle club at its luncheon today.

PA NEW OBSERVES

Main stem traffic on East Washington street was delayed for some time Sunday evening when the gusty gales of last night played havoc with a gentleman's felt hat. Sympathetic pedestrians assisted in the chase and the topper was finally reclaimed, a little dusty but none the worse for its adventure.

Workmen have completed the painting of the wood, iron and tin work of the Almira home building, which has enhanced its appearance.

German Control Extension(International News Service)
PRAGUE, June 12.—Extension of German control over the Bohemia-Moravia protectorate possibly to the point of outright consolidation with the Reich as a result of recent political murders in the Kladno and other areas was anticipated today by the Czech population.

Regiments of armed troops with full war accoutrements patrolled the streets of Kladno and other towns and the tension which prevailed as the aftermath of the murder by Czech assassins of Sgt. William Knies, Nazi policeman, continued

while investigations into the Knies killing and the slaying of a Czechoslovakian policeman went forward.

Demonstration Of Nazi Strength
The fact that the murder of Knies was made the cause for demonstration of Nazi strength and that he was buried with military honors under a wreath sent personally by Reichsfuehrer Adolf Hitler in ceremonies smacking of martyrdom, worried Czechs.

Other killings, fairly frequent immediately after German protective the prominence given the Knies affair. (Continued On Page Two)

Ban On Fireworks
Will Be Enforced

(International News Service)

HARRISBURG, June 12.—A constitutional test case of Pennsylvania's ban on fireworks was postponed today as the firm of J. Halpern company, fireworks manufacturers, announced a petition for an injunction to restrain state motor police from enforcing the new law would not be pressed.

Thus, the commonwealth was practically assured of its first Fourth of July without the use or sale of fireworks except at public displays.

Arguments in the case were scheduled for this morning in Dauphin county court, but have been postponed indefinitely. G. K. Wright, counsel for the fireworks firm, informed President Judge William M. Hargest that the injunction would not be demanded.

With the last obstacle to Pennsylvania's "safe and sane" independence day, thus removed, the department of justice, aided by state motor policemen, moved ahead with arrangements designed to enforce the ban.

State authorities hailed the Pittsburgh firm's decision as another victory for public opinion—the same demand that forced the Tull-Hamilton fireworks bill through a reluctant legislature until it was enacted into law with the signature of Gov. Arthur H. James.

The "pinwheel" lobby fought long and vigorously against passage of the fireworks ban, but hundreds of protests from every section of the state and from civic and health organizations mobilized to force the bill through the legislature.

Martin Richard Fabian, 11-year-old son of Mr. and Mrs. Martin Fabian, 1012 North Liberty street, a Mahoning school student, was accidentally shot in the left side by a playmate, George Farone, aged about 14, of 539 North Liberty street, this morning about 8:30 o'clock. The wounded youth was rushed to the New Castle hospital. His condition is not believed to be serious.

Following the mishap the Farone boy stated that he had been in the garden of his home. He was joined by the Fabian youngster, who carried a .22 revolver which he wanted to sell. Farone examined the pistol and then decided to try it out.

"As I put the shell in the gun it went off and hit Martin in the side," Farone said. The bullet just missed the second and third fingers of Farone's right hand, leaving powder marks.

Earle, denied at the opening of his trial in Dauphin county court today that he failed to prevent highway payrolls in Luzerne county from being padded before last November's election, as charged by District Attorney Carl B. Shelley.

WASHINGTON, June 12.—The American government today abolished its legation in Albania in reprisal against Italy's assumption of control over foreign affairs of the former Balkan kingdom.

Secretary of State Cordell Hull revealed the official action and announced that American Minister Hugh G. Grant and his staff will return to the United States immediately.

The action marked the first official step the United States has taken since Italian troops invaded Albania several weeks ago and drove King Zog and his queen into exile in Greece.

Seek Slayer Of

PITTSBURGH, June 12.—A "man with bruised hands" was sought today as the probable slayer of Mrs. Laura Gormley, 46-year-old widow who was found dead by a clerk in her dry goods store in Homewood Saturday morning.

Theories that the woman had been killed in a criminal attack or a robbery were sidetracked by homicide detectives as they developed the idea that her slayer was probably well known to the victim.

Mrs. Gormley was so severely beaten that the killer was bound to have bruised hands, detectives theorized.

C. I. O. Unionists March
Through A. F. L. Pickets(International News Service)
FLINT, Mich., June 12.—C. I. O. unionists marched through unresisting A. F. L. picket lines in Flint and Saginaw today and resumed operations in every General Motors plant ordered struck by Homer Martin, president of the A. F. L. auto workers' union.

In Saginaw, 30 police officers injured five A. F. L. pickets and arrested eight as they swung clubs to enforce the new state labor law prohibiting pickets from blocking entrances or exits. The picket line outside the Chevrolet Grey Iron foundry was broken and G. M. officials reported 90 per cent of the employees were at work.

Fisher Body plant No. 1 in Flint was closed for an hour as 400 A. F. L. pickets paraded outside the gates, but Plant Manager George C. Patterson ordered work to begin after 2,000 of the plant's 3,200 employees reported.

The pickets made no effort to halt the C. I. O. marchers, but booed and shouted "scab" at the rival unionists.

C. I. O. unionists inside the plant lined the front windows and booed the pickets. Across the street from the plant, rival groups of sympathizers alternately cheered and booed.

WEST POINT, N. Y., June 12.—The recent fate of "undefended nations," President Roosevelt declared today, require "still greater emphasis upon the vitalization of our defense."

"When the supreme test of war comes—and I hope it never will—an army to be effective, must command the cooperation of all elements in national life."

This was the significant burden of the message the American commander-in-chief delivered to the 1939 graduating class of the U. S. Military Academy.

Equally significantly, this broadcast message came hard on the heels of the departure of King George VI of England, who, with his vivacious queen, took Canada and this country by storm on their goodwill tour.

Dictator States Not Named

Future officers of the American army had barely received their diplomas and single shoulder-bars when Mr. Roosevelt launched into a brief, but carefully-thought-out analysis of world affairs.

The president did not name the dictator states, but by strong inference he pointed an accusing finger at them.

He frankly and brutally analyzed the dire progress of implements of war through the machine age for the graduating cadets and persuasively suggested to the nation that should any crisis come he "must command the cooperation of all elements in national life."

There was no mention of Hitler and Mussolini. There was a distinct mention of the British royalty just left. But the president looked earnestly into the ranks of the grey-clad West Pointers and said:

Need Cooperation

"Leadership has meaning only as it brings about cooperation. When men are working upon a great problem, but must work by themselves, or in small groups without close contact, there is danger that they may not pull in the same direction. Cooperation means discipline." (Continued On Page Two)

Mass Drills In Virginia For Guards Of Several States In August

CAVALRYMEN WILL REMAIN IN STATE

(International News Service)
HARRISBURG, June 12.—Pennsylvania's citizen army looked forward today to leaving native soil for annual summer field training for the first time since the World war.

Nine thousand Pennsylvania National Guard troops will break double precedent, the department of military affairs announced, by joining army and citizen soldiers of other eastern states in mass drills in Virginia August 5 to 19.

Only Cavalry Not Included
Only the revamped 52nd Cavalry Brigade and the newly-created 166th Field Artillery (motorized) units will remain in Pennsylvania for training on the huge Indian town Gap military reservation a short distance from Harrisburg.

One infantry regiment, four regiments of field artillery, one of anti-aircraft artillery, and several smaller units will mark the largest movement of Pennsylvania troops in motor vehicles since the war.

The entire 28th Division, plus the 21st Coast Artillery, the 176th Field Artillery, the 103rd Observation Squadron and the newly-created 22nd Signal Corps will converge on Virginia for mimic warfare in the Manassas-Quantico area.

not meticulous though unthinking obedience to guard-room technique, nor blind mass cooperation of a Macedonian phalanx or the whole close order attack."

The newest second lieutenants, U. S. A., undoubtedly reviewed their recent history to ascertain any possible allusion to the Rome-Berlin axis which has all Europe in a fever of war.

"Recent conflicts in Europe, the Far East and Africa bear witness to the fact that the individual soldier remains the controlling factor," continued the president in the sweltering West Point armory. "The tactics of the future intensify, rather than diminish, the necessity for high qualities of individual leadership."

Refers To King's Visit
Turning to the four-day visit of King George and Queen Elizabeth, just concluded late last night, and referring to the good-will which exists between the United States and Great Britain, Mr. Roosevelt said of that highly successful tour:

"Its significance lay in the fact that friendship could exist between the two countries since both were without fear. To achieve that result, strength is needed: strength which comes, not from arms alone, but from restraint, understanding and

cooperation which in turn are the product of trained and disciplined minds."

Thus did the president apparently warn the totalitarian states that America and Britain had affairs in common and at the same time call on citizens of the United States to back his international policy.

"With us," said the commander-in-chief, "the army does not stand for aggression, domination, or fear." He then softened his address to point out that the American army had become "a corps d'elite of highly trained men" who were available "to assist, and to construct, when battles have to be waged against the more impersonal foes of disaster, disease, or distress."

The president and Mrs. Roosevelt arrived at West Point at 11:30 a. m. E. D. T. after a fast motor run down from their Hyde Park home.

Brigadier General Jay L. Benedict, superintendent, met the official party at the gate as the customary 21 guns boomed.

The president was led immediately into the armory where the corps of cadets, waiting their precious diplomas, stood at rigid and colorful attention—their admiring relatives and girl friends making a still more colorful border.

Auditorium Filled
"Ruffles, flourishes, and hail to the chief" blared from the band as the smiling president entered on the arm of his military aide and secretary, Brig. Gen. Edwin M. Watson. The regimental commander called the cadets to "present arms."

As the executive reached the platform, the saluted, came to "order arms," smartly "about-faced" and removed their caps. General Benedict announced the invocation by Rev. H. Fairfield Butt, III, chaplain of the academy, following which the Cadet Corps sat down and listened to President Roosevelt's evaluation of the dangers of war.

The big skylighted armory and riding hall was filled as the president launched into his speech. The Cadet Corps leaned forward to grasp every word of the address.

Mrs. Roosevelt in a blue and white print gown covered by a redingote of royal blue taffeta, occupied a front row seat a bit to the right of the speaking platform, together with sons James, Elliott and Franklin Jr. and their wives.

When he concluded on a brief happier note of peace, the Cadets rose and filed proudly to receive personally their diplomas from the president.

Father George G. Murdock, Catholic chaplain, said a brief benediction, cheer leaders led the corps in a "long corps" yell for the president, and the official party departed from the armory for a "strictly private" reception in General Benedict's quarters.

The presidential special was pulling out of West Shore station, a brief motor ride away, at 2:00 p. m. E. D. T.

FAITH
We made a trip down through the eastern part of the state Saturday afternoon and evening. In going through some of those towns there Saturday evening, we thought the depression was over. The banks and stores were open; streets and alleys filled with cars; sidewalks crowded with people; and the clerks in the stores racing from one to the other.

These towns did not look like Ghost Towns on Saturday night. CAMPBELL'S SINCE 1898. WE DO NOT LEND OR RENT OUR CHAIRS. THEY ARE FOR FUNERAL WORK ONLY.

RECOVERY PROGRAM SEEMS TO BE TWINS

GRADUATES of Syracuse University were told by Senator Vandenberg that there cannot be any recovery:

"Under restrictive laws which stifle initiative, penalize thrift, discourage aspiration, throttle investment, kill confidence and harness the thwarted activities of citizenship in the strait-jacket of arbitrary government controls."

From an avowed aspirant for the Presidential nomination here is suggested formula for Republican platform-making. On the same day, scorning as unAmerican the conscription of wealth and labor as one of "only two ways of producing wealth," another speaker told the ways and means committee of the House:

"The other way is to provide the incentive of wages, interest, dividends and profits. This is the way to which we are committed, the only way we can think of taking."

And who is this who takes in positive fashion the same stand Senator Vandenberg takes negatively—another Republican candidate? Not so; this is Under-secretary of the Treasury Hanes, supposedly as spokesman for the Roosevelt administration. "Both members of this club," as the ringside master of ceremonies would put it.

Then what's all the fighting about? It's all very confusing, leaving one almost in the state of mind of ancient and dim-eyed Isaac when he protested: "The voice is Jacob's voice, but the hands are the hands of Esau."

WEATHER RESEARCH

"Only the surface has been scratched."
The words are those of United States Weather Chief F. W. Reichelderfer in one of numerous addresses he has been making about the problems and the prospects of the weather bureau. He referred to what has been done in meteorological research by government, by educational institutions and private enterprise combined.
"Art is long," and there is enough art in the mastery of weather knowledge to make it age-long, yet efforts in the direction of that mastery have covered barely three-quarters of a century.
Wildcat weather forecasting reeks of quackery and superstition, while the real meteorologists struggle with obstacles all but insurmountable. In a sense, the science is only beginning to emerge from its "dark ages," as the weather chief has described it.

ACADEMIC CHARACTER

There is a distinct note of sound liberalism in the announcement by Dr. Nicholas Murray Butler, President of Columbia University, that the university has turned down \$9,000,000 in gifts because prospective donors wanted to restrict academic freedom in certain ways.
This is a thoroughly commendable attitude. Faculties in higher institutions of learning should never be hamstrung by social, economic or political bias. They should remain free to pursue the truth as they see it without regard to the superimposed demands of either administrative officers, affluent alumni or beleaguered tycoons.
The \$9,000,000 which Columbia University has refused in the name of institutional liberty may find its way into the coffers of some college less solicitous about the preservation of American independence. But the vast educational organization which Dr. Butler heads will forever have to its credit a courageous defense of lofty principle in the face of monetary temptation.

IMPROVED DOUGHNUT

A current inventor's exhibition in Chicago produces one meritorious adaptation—as such affairs usually do—but the problem of popularizing it assumes its customary proportions. And what good is any invention if the populace spurns it en masse?
At the Chicago exhibition is an improved doughnut—a doughnut with a handle. Not a handle attached to the doughnut but which is an integral part of the whole and no pun intended. It seems this doughnut is cut out of the dough with handle and doughnut one unit.
What good is a handle on a doughnut, you ask? That's just it. When people ask what something is good for they are suspicious and skeptical and it's a foregone conclusion that to convert them will entail a long and arduous campaign of education.
The handle is put there to grasp while the doughnut is being dunked and the fingers are not. But doughnut dunkers have become so "set" in their ways through years of instinctive indulgence in a rite that hasn't changed that a doughnut with a handle will probably remain but an inventor's dream. It's too bad, too, because it appears like a splendid idea.

HITLER'S HEADACHE AS PER FORECAST

When Nazi Germany annexed Bohemia and Moravia last March and brought non-Germanic peoples under domination of the Reich, it was freely predicted that Chancellor Hitler was contracting for an excruciating headache. It was pointed out that the Bohemians and Moravians were ardent lovers of liberty and that, through all history, they had made trouble when subjected to the yoke of tyranny.
The killing of a German policeman in the town of Kladno, near Prague, following the incident last month at Pilsen, where acid allegedly was thrown at German soldiers, seems to bear out the forecast that the Czechs would not take kindly to the destruction of their independence by Hitler and his Nazi Government.
Retaliatory measures taken by the Germans at Kladno as sequels to the shooting follow a familiar pattern. Open gatherings have been prohibited, schools and theatres have been closed. State police have been disbanded and a governmental commissar is to be appointed for the district.
Thus, although the Czechs were left with few enough liberties after the annexation, an anti-Nazi incident is sufficient to bring down on them still heavier oppressions and more stifling restrictions. It is conceivable that they will lose all remnants of local rule.
All this is hard on the Czechs, but it is to be doubted whether the full weight of Hitler's iron heel will be able to crush the spirit of independence that through long and arduous centuries has been nurtured in Bohemia and Moravia. Furthermore, it is not unthinkable that if an anti-Nazi movement ever gains momentum in the Reich the Czechs will not be found holding themselves aloof from it.—Philadelphia Inquirer.

Father's Day and Flag Day will both soon be with us, which should remind Young America that the flag is deserving of all honor, and so's your old man.

The World AND THE Mud Puddles

REASSURING

There are many pessimistic people in these United States who believe the youth of the Nation is "going to Hell in a hanging basket." Perhaps some of the youths of the Nation are tending that way, but the great majority are not.

The Rotary Club of San Diego had the privilege recently of being entertained by Captain Blackburn, Commandant of the Training Station of the United States Navy, located in San Diego. We were treated to a luncheon in one of the great dining rooms of the Station—the same kind of luncheon served that day to the men. It was a good example of the food served the men of the Navy—soup, chicken, vegetables, cranberries, ice cream, cake and lemonade. The only thing different was the lemonade, for the regular service to the men is milk.

After luncheon Captain Blackburn spoke for a few moments of the work of the Station, the training of the men and the principles of conduct taught them. Three outstanding demands are made of the men—"Speak the truth, always; keep your body clean, and obey orders immediately."

He then took us out on the great parade ground and treated us to a parade and drill of the men. There were about five hundred of the men in line. The parade ground, as those who have visited it know, is a great expanse of concrete, extending along San Diego Bay, surrounded by the beautiful buildings of the Station, set amidst gorgeous landscaping.

I sat beside a Lieutenant-Commander, watching the drill. He told me there were about one hundred of the men that had only been in the station eight and one-half days. The calisthenics in the drill are performed without orders. The base drummer hits his drum sharply and the men stand attention, ready for the next movement, and the band plays on. I did not detect a single false movement by any of the men. They did everything in unison and you would have thought that every man was a seasoned soldier. The man beside me said that he never watched the performance but that he had a curious feeling inside of him; that little chills always crept up his backbone, for here was a bunch of young Americans who were keen in their desire to learn everything that was taught them and who had the brains and the ability to absorb everything very quickly.

He told me that in the four Naval Training Stations now in the United States about one thousand were received each month—the pick of about twelve thousand volunteers; that among the young men out there parading were young men who had been obliged to cut short their college and university education by reason of financial difficulties in their families; that there was not one among them who had not received the equivalent of a High School education; that they were all sons of native-born Americans; all in perfect health and all eager to serve their Nation to the best of their ability.

It was the most inspiring sight I have witnessed for many a long day.

UNION

What fastens men together is never fire and steel.
But something very simple and likewise very real.
A common love of gardens and woods and fields and streams
And all the endless hopes and aims which fashion human dreams.

Men always band together for pride and pleasure's sake.
Love welds a stronger union than force can ever make.
The joys of home lie deeper than joys of pomp and power,
And nothing's so uncertain as despotism's hour.

Men join for mirth and music; for childhood's right to play,
For all the common pleasures to gather long they'll stay.
The simplest garden blossoms have more to sing their praise
Than all the shackled soldiers that tyranny can raise.

HINTS AND DINTS

Sun sets tonight 7:31; sun rises tomorrow 4:28.

Some of the wild boys are not satisfied now to fly over the oceans in their planes, but say they want to fly to Mars. Some have tried it and evidently got there and cannot get back.

A hick town is a place where the hoot owls keep the night watchman awake.

The National Institute of Research of the University of California has found, after careful research, that there are 3,500 different kinds of jobs people can engage in. And just to think some people cannot find one in that number to suit them. Loading is not one of the jobs mentioned.

It is a true democracy if you can walk up to its most important citizen and without offense say: "Got-a match?"

OFFICER OF THE DAY
A colored soldier was walking post for the first time in his life. A form approached him. "Halt!" he cried. "Who are you?" "The officer of the day," "Advance!" The O. D. advanced, and before he had proceeded half a dozen steps the dusky sentinel again cried "Halt!" "This is the second time you have halted me," observed the O. D. "What are you going to do next?" "Never you mind what Ah's gonna do. Mah orders are to call 'Halt' three times, den shoot."

Not every one is of the opinion that the world is going to the dogs. Many believe it has already done so.

SEA LEGS

Middle—"Lady, I wasn't even looking."

If the great majority of the people in the United States ever decide to do things that should be done in this country, we will have a great country. Just letting a few racketeers run things is all wrong.

A bulletin from the government says prices on groceries are too high. Don't tell us, Uncle Sam—tell the grocer.

WHAT A PRIVATE THINKS ABOUT
In Denver a man wearing the service button stood thoughtfully in front of a glaring sign which read: "Chances for service in eight different countries. The sergeant will tell you where you can go."
"I wonder" ruminated the button wearer dreamily, "what the seven are besides the one he used to mention so often."

People have found out that they cannot enjoy more and more by producing less and less.

A man, who emigrated to the United States from Germany just after the Civil War, has applied in Texas for citizenship papers at the age of 95. Evidently wanted to be sure he liked this country before becoming a citizen of it.

Monkeys never learned that secret of getting ahead. No monkey ever seized a tree and charged others rest to roost in it.

YOUTH AND OLD AGE
Colonel Groucher had been a gay young dog in his youth. Quite a hit with the ladies, doncher know! Old age had brought on its disabilities and he gradually found he was getting left behind until at last all he could do was to envy the young fellows who were still in their hey-day.

So strongly did he resent having

to take a back seat that he never lost a chance of getting a dig in at one of the younger officers.

He was sitting in the mess one day when one of the young subs sauntered in.

"Hallo, you reckless, young blood!" growled the colonel.

But this time the tormented one was equal to the old man.

"Cheerio, you bloodless old wreck!" he responded with a smile.

Note to entertainers: If you wish people to like you, make them laugh. If you would have them love you, make them cry.

Flag Week is to be celebrated by quite a few cities this year. There are a lot of birds in this country who should learn more about our flag and flashing it into their faces is the best way to do it.

NATURAL INFERENCE
"Inspection arms!" roared the corporal.

Casey, a husky new recruit immediately dropped his rifle and rolled up his sleeves.

"What are you going to do—fight?" asked the corporal with apprehension.

"No," said Casey mildly. "I thought ye wanted to see if I'd been vaccinated."

Young parents don't warn a kid not to do a thing; they dare him. And a kid with any spunk naturally takes a chance.

When millions are thinking and planning to make progress, that is democracy. When they all quit thinking and obey a boss, that is Fascism.

MURDER IS ADDED
A C. likes a good Scotch story, even though he says that all of them are "colossal lies." This one, he says, is tops:

A Scotchman once crossed a river on a ferry boat. When the boat was about half way across, the conductor charged the Scotchman for the trip, and wanted an extra dollar for carrying the man's baggage.

The Scotchman refused to pay the extra charged, so the conductor picked up the baggage and tossed it into the river. The Scotchman was angry.

"You not only rob me of my money," he said, "but you drown my youngest son."

It takes practice to act rich. You feel silly sitting still and calling a servant to hand you something that is four feet away.

The New York stock exchange is figuring on cutting down its expenses by discarding one-half of the building it now occupies. No doubt a lot of birds can lose just as much in a building half the size of the one now being used. Lack of business is the cause for the economy.

With congress in session and a hot summer in prospect things don't look so good. We can stand the hot weather very well.

Republicans Are Delighted At Break Split Threatens In Democratic Ranks
New Dealers Want Roosevelt Replaced

By CHARLES P. STEWART

Central Press Columnist

WASHINGTON, June 12.—To Republican ears there could be no sweeter music than the discord created by the jowling and counter-jowling between supporters of John N. Garner's Democratic presidential nomination next year and proponents of a third nomination of Franklin D. Roosevelt.

As G. O. P. politicians see it, it does make much difference whether or not the present White House tenant does or does not want another term. Leading New Dealers evidently want another one for him and will be furious if he isn't named again. The anti-New Dealers seemingly will be equally sore if the convention does select him. Even supposing that Roosevelt actually prefers not to run again, but the convention chooses an aspirant as per his indorsement—the "antis" still will be violently disgruntled.

Roosevelt or someone he picks! Or Garner! Either way (or any one of the three ways), the Republicans argue that the Democrats will be split right down the middle.

It's easy to see that this will promise duck soup to the Republican candidate.

The G. O. P. is pretty solid. It has its little internal rivalries, but they can be reconciled, at least for campaign purposes. But the conflict between pro and anti-New Deal Democrats is bitterer than the conflict between Republicans and average Democrats.

Republican Gratitude

If the Republican national committee consistently could pass a vote of thanks to Garner's boosters, on the one hand, and to Interior Secretary Harold L. Ickes, on the opposite side, undoubtedly it would do so.

The sequence couldn't have been more perfect.

First the Garnerites proclaimed their standard-bearer.

They hinted unmistakably at anti-

New Dealerism, but it wasn't a clean-cut anti-Roosevelt declaration.

The Republicans couldn't well say that that was what it was. The Garnerites might have denied it. Secretary Ickes took that job off their hands—with his third-term-for-Roosevelt pronouncement.

"This is no time," he said, "for a candidate whose claim to office consists of the treacherous knifing in the back of the commander-in-chief to whom he has sworn fealty." He didn't specifically mention John N. Garner, but the Texan's boom had been launched not more than 48 hours before Ickes' statement made its appearance.

Ickes' utterance, dictated to a national magazine, perhaps was evolved before Harold was aware that the Garner boom was about to be launched. Nevertheless, it was a coincidence.

It suits Republican purposes, anyway.

Hard To Tell

Some accounts are that the administration knew the Garner boom was about to be developed and that Harold was assigned to try to deflate it. Some are to the effect that he, personally, had a pre-Garner hunch, and decided to fight it independently.

He bungled the job, anyhow.

Harold is an amateur. John N. Garner and his folk are professionals.

But, good gosh!—isn't Franklin D. Roosevelt a professional?

Well, he's permitted the cards to be gummed.

Maybe he couldn't have helped it. It isn't Garner versus Roosevelt. But it's who—versus what?—Democratically?

And partisanly—which?

All the Republicans care for is a Democratic split.

If so they think they can win. They certainly are hopeful, from all signs—as they interpret them.

The Human Side Of The News

(By EDWIN C. HILL)

Copyright 1939 King Features Syndicate, Inc.

On July 3, 1874, the Philadelphia Public Ledger printed, obscurely, the following notice:

"Lost on the 1st instant, a small boy, about four years of age; light complexion and curly hair. A suitable reward will be paid for his return to E. L. Joyce, Central Station, corner of Fifth and Chestnut streets."

Today, in Phoenix, Arizona, there is a 69-year-old carpenter known as Gustave Blair, who says he is that missing person. The kidnaped Charles Ross whose story has run through two generations and still remains a baffling mystery after all these years, still a classic in crime even in modern times and with far more recent "snatches" of dramatic and tragic sequel.

An Arizona judge accepts Mr. Blair's claim and rules that he is the missing Charles Ross. However, it was rather a peculiar judgment, was it not? The relatives of Charles Ross, as the relatives of Mr. Blair's family status, did not appear. No money was demanded. Mr. Blair sought legal identification merely to allow him to be re-married in Germantown, Pa., the home of Charles Ross, on July 1, under his own name. The ruling of the judge received only casual attention in the newspapers. Not that interest in this news perennially ever fade. It is merely that there have been so many Charles Rosses that one more or less doesn't seem to matter.

The late Captain Ayres of the New York Bureau of Missing Persons used to remark on a dull day, "Well, it's about time for somebody to drop in and say he is Charles Ross." When the first of these self-identifications appeared in the papers, Mr. Van Hodge had some rather impressive evidence, but somehow it trailed on out of the back pages and was forgotten.

Then came Charles Burton Ross, of Cleveland; W. R. Solesman and Charles Burton Ross, of New York; Julius Dellinger, of Denver, L. D. Bond, of Dayton; Daniel Peters, of Livingston, N. Y.; Walter Brown, of New York; Welfare Island still declining with his dying breath, that he was Charles Ross—these and countless others on down through the years.

A curious detail of singular record is the fact that all of these claimants were apparently honest, hard-working persons, as is this Arizona carpenter, apparently absolutely convinced of the truth of their claims. None was unbalanced. In no case was hope of money involved. Several offered what appeared superficially to be convincing proof.

This was America's first notorious kidnaping. They used chalk plates in the newspapers then, for it was before the days of the "zincs" and photo-engraving. Compared to present time, their resources and facilities were meagre in publicizing and sensationalizing the kidnaping of the tiny lad with the yellow curls, but they made the most of what they had. And they certainly had the ingredients of a big story—all the more of a sensation because of its novelty, in the days before kidnaping had become an established industry.

Christian K. Ross was a well-to-do Philadelphia dry-goods jobber. Baby Charles and his brother Walter, aged six, were playing on the lawn in front of the family's imposing Currier and Ives residence in Germantown. Two unkempt, loafing fellows drove up in a shabby buggy, lured the boy into the rig,

drove off and gave Walter a quarter to buy candy. When the lad came out from the candy store, the buggy with the two men and his brother had disappeared.

On July 4, the father received a letter which said that Charles was being held for a ransom of \$20,000. And there was this warning:

"Any approach of his hiding place will be made the signal for his instant annihilation. Will write later."

Reading the stories of the country's rage and horror at this date, one would think that we must have been much more sensitive, much less callous then than we seem to be now in the face of cumulative horrors. The whole nation turned out on a man hunt. A rendezvous was made with the kidnapers at a New York hotel, with the ransom money ready, but they did not keep their appointment.

It was years before the excitement of the activities of volunteer detectives began to die down. Newspapers fought a pest of clairvoyants, people who had seen Charles Ross in a vision, spiritualists bringing in town ghostly tribes of Indians who brought word that the lad had been adopted into a far-western Indian tribe. Mothers wept all over the country as a national detective agency scattered thousands of photographs throughout the land.

The Amalgamated Friends of Charles Ross' became a nationally organized society. Nobody could say the newspapers were pumping this up. It was merely a manifestation of spontaneous public feeling. Kidnaping was then and is now a tremendous moving story, one which stirs the fires of anger and tugs at the heart-strings of pity.

Words Of Wisdom

No human face is exactly the same in its lines on each side; no leaf is perfect in its lobes, and no branch in its symmetry. All admit irregularity, as they imply change. To banish imperfection is to destroy expression—to check exertion, to paralyze vitality. All things are better, lovelier and more beloved for the imperfections which have been divinely appointed, that the law of human life may be effort, and the law of human judgment may be mercy.—Ruskin.

Bible Thought For Today

But if any man love God, the same is known of him. 1 Cor. 8:3.

Hints On Etiquette

If you meet an intimate friend whom you haven't seen for some time on a busy street, step aside, out of the stream of traffic, while you converse.

A Navy recruiting station at El Paso, Tex., turned down Augustin Yarnell because he had tattooed on his chest a reclining mermaid in the nude. Next day Yarnell turned up again—this time with his ornament modestly attired in skirts. The Navy accepted him.

Our politicians, regardless of their private beliefs, say what is necessary to win. Why think that Europe's politicians are different?

WASHINGTON, June 12.—The per capita cost of operating and maintaining the general government of Pennsylvania increased from \$12.70 in 1932 to \$22.93 in 1937, the Department of Commerce announced today through its Census Bureau.

Charity costs accounted for 83 per cent of this increased outlay for government in the Keystone state. Charities cost the state \$93,321,818 in 1937, or an average of \$9.19 per resident compared with a 1932 average of but 73 cents per resident.

Revenue collections of the state government increased from \$17.4 per resident in 1932 to \$37.23 in 1937. The per capita net indebtedness of the state climbed from \$7.76 to \$11.98 in the same years.

The valuation of taxable selective property in Pennsylvania for 1937 was \$3,747,460,000, or \$362 per resident, and the tax collection on this valuation aggregated \$14,989,960, or \$1.48 per capita. Comparative figures for 1932 were not given by the Census Bureau.

Total cost payments for operation and maintenance of general governmental departments were \$232,798,071 in 1937.

Senatus Romanus Members Named

Latin Teachers Of City Make
Recommendations For Honorary Organization

According to custom, the various Latin teachers of the city announce at the end of the term their recommendations for membership in Senatus Romanus, the honorary organization for Latin classes of the city schools. These recommendations take the form of "honors" awarded to the highest ranking members of Caesar, Cicero and Vergil classes that are completing a year's work in those respective authors.

George Washington's Caesar class reports Kathryn Wilcox as receiving the Summa Cum Laude award; Joan Simpson, Magna Cum Laude, and Mary Jane McGinty, Cum Laude. The senior high school's more numerous enrollment of Caesar pupils has a longer list of honor students: Alice Di Carlo, Summa Cum Laude; Martina John, Magna Cum Laude; and Cum Laude for Earl Carr, Eleanor Eckles, Gerhard Schlumberger, Jean Cameron, Stanley Yakowicz, Evelyn Reno and Albert Marrangoni.

The Cicero class reports William Nicholson for Summa Cum Laude, Edna Flannery for Magna Cum Laude, and Gladys Reed and Catherine Flynn for Cum Laude.

The highest ranking Vergil students are given handsome "golden bronze" medals by Senatus Romanus as their gesture toward the encouragement of students to secure a thorough grounding in the classics. The student receiving the Summa Cum Laude medal from Senatus Romanus also receives by reason of his standing the \$10 cash prize of the Lawrence County Bar association.

This year Irwin Master, son of Mr. and Mrs. Edward Master of West Long avenue, was the winner. Irwin also was awarded the prize for outstanding work in mathematics.

The Magna Cum Laude award in Vergil was won by Constance Watt, and the Cum Laude medals by Anna Abraham and Jane Morris. Jane also won the chemistry prize. Jane and Irwin demonstrate a little more forcefully than usual what is ordinarily true, namely, that good Latin students stand high in all-around scholarship.

Old Tombstone Found In Home

Joseph Marotti of 902 West Washington street was surprised a couple of days ago to find a tombstone, about a hundred years old, in his home.

Four years ago this month Mr. Marotti purchased this house, which was an old one. Since that time he has dug out the cellar and made several minor repairs.

This week Joe arranged to close

up one of the fireplaces upstairs. He took out the grate and lifted the hearthstone, and was astonished to discover it to be the larger part of a white marble tomb or grave stone. It was four feet high and one and a half feet (originally two feet) wide.

The inscription, which is very plain on the left half of the stone (which is intact) is "David Duman was born March 1, 1828, and died Sept. 21, 1837." Beneath the inscription, in italics, is "McBride", probably the name of the person who sold the "headstone".

Ours is the richest nation, and therefore the most helpless. Any land can make us play ball by threatening harm to our investments.

It's simply grand to sit down to a tasty meal, eat my fill, and never suffer afterwards. I can eat whatever I like and not be kept awake by gas, then get up in the morning without a headache or dizzy feeling, and really feel refreshed after a good night's rest. I feel wonderful since taking Vendol and am sure this great medicine will help everyone with the same troubles."

All druggists sell Vendol, so it is not difficult to get, and the Vendol Man in person invites everyone to call at Eckerd's Cut Rate Drug, 118 E. Washington St., and let him explain all about this great Root, Herb, and Alkaline medicine. There is no charge, so don't delay.

Mrs. Theresa Jennings
There is only one way for you to find out whether Vendol will help you as much as it has helped hundreds of men and women right here in our home town, and that is try Vendol and see for yourself what it does. It has been proven however, that nearly everyone who gives this great Root, Herb, and Alkaline medicine a fair trial, is well pleased with results and day after day responsible people come to Eckerd's Cut Rate and tell the Vendol Man about the wonderful relief it has given. Such was the case of Mrs. Theresa Jennings of 742 E. Washington St., New Castle, who says:

"It was certainly discouraging to be hungry, eat a hearty meal, and soon thereafter feel your stomach grumbling, feel so full and bloated you could hardly get your breath. It just took all the joy out of my meals.

Four Generations of Fashions Worn by Bette Davis

The styles of the past 89 years are shown by Bette Davis, top-notch film star, in costumes she wears in four of her recent pictures. They are: 1850—A pre-Civil War afternoon frock. Thoroughly feminine, is the bouffant checked dress with its snug black satin jacket and white dimity blouse. 1863—This hoop-skirted taffeta dress with

its "military" jewels was eminently suitable for tea or informal dinner that distant year. 1900—This dinner dress of black velvet, with a white ruffled gimp and, naturally, a bustle was in every fashionable woman's wardrobe at the turn of the century. 1939—As modern as this newspaper is clever evening gown of today.

Large Crowd At Outdoor Service

Feast Of Corpus Christi Is Observed At St. Vitus Church On Sunday

Amid a beautiful setting, parishioners of St. Vitus church fittingly observed the Feast of Corpus Christi with impressive outdoor services which were witnessed by more than 4,000 persons, Sunday evening.

South Jefferson, East Home, South Mercer and Maitland streets were attractively arranged for the religious event. The sides of the streets were decorated with expensive linens, lace and various types of tapestries. A profusion of summer flowers were strewn about the streets. Four altars, constructed at the four corners, were neatly arranged.

Shortly after 6:30 o'clock, the procession, which included approximately 1,500 persons, proceeded slowly up South Jefferson street to the corner of East Home. Here, the first Benediction of the Blessed Sacrament was conducted. The procession continued to the corner of East Home and South Mercer where the second Benediction of the Blessed Sacrament was conducted. Similar services were conducted on the corners of South Mercer and Maitland and Maitland and South Jefferson streets.

A crowd which overtaxed the capacity of the church attended the closing services. The Rev. Fr. Nicholas DeMita, delivered an inspiring sermon. The impressive rituals closed with the fifth Benediction of the Blessed Sacrament. The Rev. Fr. Butterbach, assistant pastor of St. Vitus, served as celebrant; the Rev. Fr. Giamarino, Campbell, O., was deacon and Joseph Mastrangelo, a student at St. Vincent, was subdeacon.

Various organizations of the church, altar boys, small girls, the Sons of Italy band under the direction of Anthony Basile, and a number of visiting priests, participated in the procession.

Priests who conducted the services included: The Rev. Fr. DeMita, the Rev. Fr. Butterbach, the Rev. Fr. Nicholas Biondi, Pittsburgh; the Rev. Fr. Dante DeLillo, Butler; the Rev. Fr. Giamarino, Campbell; the Rev. Fr. Foley, Pittsburgh; the Rev. Fr. O'Donnell, chaplain of New Castle hospital; and Joseph Mastrangelo and Richard Palusz, students at St. Vincent's College, Latrobe.

City Now Owns Cascade Pool

Legislation Adopted Today Finds Glenn Selling Interest To City

During council meeting, held in the city hall today, council adopted an ordinance whereby the city purchased from William H. Glenn all his real and personal property and fixtures, excepting the peanut stand, for \$8,000. Glenn holds the right to use the cottage beneath the gorge ride as long as he lives.

An agreement to this effect was signed by both Glenn, and Mayor Charles E. McGrath in behalf of council. The money will be paid \$2,000 with the execution of the agreement and the remainder at the rate of \$2,000 annually. No interest is involved in the installment payments.

This means the swimming pool and bath-house now are the property of the city.

According to a report made by James L. Fink, finance director, the merry-go-round, dodgem and pool receipts since the city started municipal operation have amounted to approximately \$556.

GAS AND STOMACH DISTRESS TOOK JOY OUT OF HER MEALS

E. Washington St. Matron now tells how Vendol soon had her eating every bite with relish, and feels better than in years.

There is only one way for you to find out whether Vendol will help you as much as it has helped hundreds of men and women right here in our home town, and that is try Vendol and see for yourself what it does. It has been proven however, that nearly everyone who gives this great Root, Herb, and Alkaline medicine a fair trial, is well pleased with results and day after day responsible people come to Eckerd's Cut Rate and tell the Vendol Man about the wonderful relief it has given. Such was the case of Mrs. Theresa Jennings of 742 E. Washington St., New Castle, who says:

"It was certainly discouraging to be hungry, eat a hearty meal, and soon thereafter feel your stomach grumbling, feel so full and bloated you could hardly get your breath. It just took all the joy out of my meals.

"This gas was so bad sometimes that it made my stomach feel swollen, would keep me awake and I'd feel as though I were smothering. Then too, I often felt dizzy, spots danced before my eyes, my tongue was coated, and I'd awaken with a bad taste in my mouth and feeling tired, listless, and nervous.

"A few weeks ago I began taking Vendol, and the first dose started my bowels acting and soon gave me

MRS. THERESA JENNINGS

grandest relief I'd known from constipation, and now I never have the indigestion, gas, sourness or shortness of breath as I used to. It's simply grand to sit down to a tasty meal, eat my fill, and never suffer afterwards. I can eat whatever I like and not be kept awake by gas, then get up in the morning without a headache or dizzy feeling, and really feel refreshed after a good night's rest. I feel wonderful since taking Vendol and am sure this great medicine will help everyone with the same troubles."

All druggists sell Vendol, so it is not difficult to get, and the Vendol Man in person invites everyone to call at Eckerd's Cut Rate Drug, 118 E. Washington St., and let him explain all about this great Root, Herb, and Alkaline medicine. There is no charge, so don't delay.

This Royal Welcomer Forgot Her Cue

Like all kids, this little girl plain forgot what Mama told her to do, and approaches the Queen with her dress in her hand instead of the curtsy she practiced. The child is Isabel Kinloch, born in England, and was brought to British Embassy by her mother (beside her) where Their Majesties met members of the British colony of Washington. The King is at right.

Mrs. Mabel Osborn, of San Francisco, Cal., holds her 5-year-old son as they were reunited after he had been missing twenty-four hours, held for \$1,600 ransom. Right, holding the boy's hand, is the boy's nursemaid, Graham Gaylord, charged with the kidnaping. Trapped in a San Jose hotel, she said she needed the money to "protect the life of one very dear to me."

Right, Diver Harry Ross, is about to descend to the grave of the ill-fated craft off Portsmouth, N. H. (Central Press)

Spanish "Volunteers" Return to Germany

All through the period of non-intervention agreements, Germany denied her soldiers were aiding the forces of General Franco in Spain. Victory won and the Republican army defeated, Germany openly boasted of her role. Here, 5,000 men of the Nazi Condor Legion parade through Hamburg on their return from Spain. Field Marshal Hermann Goering is taking the salute as the paraders pass him. (Central Press)

SHE'S MIRACLE OF SURGERY

Grace McCartney

A plump, 17-year-old Pottstown, Pa., school girl—Grace McCartney—leads a happy life, thanks to a series of skin-graftings which changed her flame-seared, twisted body into the healthy, sturdy physique of a normal young girl. When she was seven Grace set fire to her clothes. At first her life was despair of. Skin provided by her mother not only saved her life but restored her youthful charm. Grace is an honor student in a Pottstown school.

MORE SUBMARINE TROUBLE

Daughter Held

"I can't believe it," said Mrs. Graham Weil, farmer's wife, of Nassau, N. Y., hearing that daughter "Poly," had been arrested in San Francisco for the kidnaping of five-year-old Krehe Osborn. The girl, who had been nursemaid to the boy, allegedly confessed holding the child for \$1,600 ransom because "mother needed help."

Daughter Slain by Trooper

Mr. and Mrs. John Stevens and two of their three remaining children, Kathleen (left) and Rita, are shown in their Nesquehoning, Pa., home, mourning 14-year-old Joan, slain by six shots from a state policeman's gun. Corporal Benjamin Franklin claims the schoolgirl was in the back seat of his patrol car being questioned regarding series of holdups when she drew what appeared to be an automatic. The girl's gun proved to be a cap pistol. (Central Press)

Dedicate Organ Sunday At St. Philip And James

In a triple service Sunday, June 11, the congregation of St. Philip and James Church saw the Moller organ dedicated, the new stained glass window blessed, and the dedication of Rev. V. V. Stanciewicz, by the Polish government given public recognition.

At five in the afternoon a dinner was held in the parish house at which time the awarding of the Order of Polonia Restituta to Rev. Stanciewicz was marked. Present for the dinner were visiting clergymen and the Polish Consul-General of Pittsburgh, H. Sztark.

For the evening service the following clergymen served as officiating: Celebrant, Rev. V. V. Stanciewicz; Deacon, Rev. K. Kobylarz; Masters of Ceremony, Rev. Wlad Koladowski, Rev. S. Noroski, Chanters, Rev. S. Zolnierzak, Rev. Dante De Lillo.

At seven-thirty Miss Marie Dutkiewicz, organist of the church presented a group of organ numbers,

among them a number "Pax Vobiscum" by Garth Edmundson, local composer. Other numbers were "Sol-feggio" E. Bach, "Choral" by J. S. Bach, "Dumki Polskie" by Marie A. Dutkiewicz, "Nieszpory Solenne Do Matki Boskiej" by J. Singenberger. The Dixit Dominus, Nisi Dominus and Magnificat followed.

Other numbers were the Ave Mindi Spec Maria, Anielska Pisen Dzwon Gral, Modlitwa Za Ojczyzne, Ave Verum Corpus Natum, Pobjegoslav Nam O Boze, Tantum Ergo, and a closing hymn.

Three choirs assisted in the special musical presentation, the Holy Name Choir, the Young Ladies Sodality choir and the Boy Scouts choir.

The new window, beautiful in its design and color harmonies was blessed with appropriate ceremonies. The day was one of deep religious significance and one to be remembered by the people of St. Philip and James.

MISS LEONE GAUTHREAU
Washability Expert from the

"How much should we pay for stockings?" "Why do so many runs just happen?" "Can stockings be durable without being dowdy?" "What shade looks best with fuschia?"

These are the kinds of questions high school girls generally ask," says Miss Leone Gauthreau, who is at Strouss-Hirschberg's this week. "They care a great deal about fashion, but they are also keenly interested in how things are made and what definite reasons for a difference in price. When they are given facts, they make very intelligent and shrewd buyers."

"In my travels I am often asked to settle disputes between mothers and daughters. Usually the daughter wants to wear two-thread evening stockings to school. Her mother wants her to wear seven-thread service weight—says she gets so many runs it costs a fortune to keep her in stockings."

"As a compromise I suggest a four-thread crepe twist. From a fashion standpoint it is more appropriate than evening sheers with her tweed skirts and lightweight wool school dresses. At the same time, it is sheer enough to be attractive. A four-thread crepe twist actually looks almost as sheer as a three-thread afternoon weight, yet it wears very well."

"Then I also give the daughter some advice on how to care for her stockings. Washing stockings incorrectly weakens elasticity and so is often the cause of those runs that just 'pop' without apparently reason."

"Luxing stockings each night is easier than letting them pile up for a week, and it helps them last longer. Girls are convinced when I do it if it is allowed to remain in silk. Luxing stockings at night ought to be a habit just like washing your face and brushing your teeth."

Judging by the advertisements, the chief fun in American social life is that of ridiculing the costumes, toilets and smells of the other guests.

APPRECIATE WORK OF CITY MISSION

In a voluntary testimonial, Mr. and Mrs. C. W. Fesler today praised the work of the local City Mission and its superintendent, Archie Gibson.

Although residents of New Castle for some time, Mr. and Mrs. Fesler and family of three found themselves stranded in Baltimore, Md., where they went to get a promised job that failed to materialize.

They were in a bad spot until the relief office there provided transportation back to New Castle. Returning here they didn't have a place to sleep. Upon calling at the Mission they were welcomed and given the best of care for several days. Mr. Fesler stated that the Mission is bright and spotless and provides fine accommodations for the stranded and poor.

Yes, it would be foolish to stop progress. But a new invention isn't progress if it does more harm than good.

FEW THINGS MORE HUMILIATING TO VICTIM THAN STUTTERING

For a few days this column will devote itself to a subject in which I have a particular and a peculiar interest—stuttering. I, myself, have suffered from this strange phenomenon of speech which is often so amusing to others and so humiliating and agonizing to the victim. Few things will handicap a boy more than stuttering or stammering.

The history of my trouble is the same as that of hundreds of other persons with whom I have talked—an accident, a fright, then the defect develops in speech.

In my case, I was several years old and was out driving with my father and mother when the horse took fright and ran away. My father was an excellent hand with horses, but this animal did get away from him and we were thrown out. I was the only one hurt, a wheel struck my head. I wasn't injured badly, but within a few days, my parents noticed that I was beginning to have difficulty with some of my words. They did everything they could to correct me, but it was no use.

As I grew up, I had the same experiences as other children; I wouldn't talk in school because the other pupils teased me and, as a result, teachers thought I was bulky and treated me accordingly. Like other stutterers, I retired more and more into a sort of dream-world of my own. I read a great deal, kept to myself most of the time, and neglected my studies frightfully. Studies to me, typified school, and since I was constantly being ridiculed and embarrassed in school, I

hated it. The only fortunate thing was that I had been born a member of a large family—there were eight of us. This kept me from isolating myself too much. But I do feel sorry for the only child who stutters, and I am told that there are more stutterers among only children than any other group.

Most stutterers are introverts. That is, they draw within themselves; they shun the outside world just as much as they can. Even after I entered practice here in the North, I continued as before. I read everything I could get my hands on. I read a great deal of scientific information. When the Dionne Quintuplets arrived, I found that a great deal of this information I had been accumulating over the years was valuable. I know it helped me do the right things, to keep them alive.

The arrival of those children did something for me too. It practically cured me of stuttering, and brought me out of that dream world where I had dwelt for so long.

But everyone who stutters can't have a shock like the arrival of quintuplets to jar them loose from their obsessions and their inhibitions. I only hope what I have to tell you may be of some use to someone whose life is being blighted by stuttering.

INVITE ROOSEVELTS TO VISIT BRITAIN?

By GEORGE DURNIO
International News Service Staff
Correspondent

HYDE PARK, N. Y., June 12.—President Roosevelt turned to sterner things today after four pleasantly hectic days of introducing nervously admiring Americans to their Britannic majesties, George VI and Elizabeth. This noon, at West Point, the chief executive—as commander-in-chief of the military establishment—was personally graduating the 1939 class of the U. S. Military Academy. Over champagne glasses in Washington and milder drinks at a Dutchess Hill picnic, the president and the British sovereign had pledged fealty to the cause of world peace.

As the amiable, well-liked king and queen sped over the border to the termination of their Canadian-American good will tour, however, Mr. Roosevelt motored down to the military academy to give further vocal assurance that the United States is fully prepared for any eventualities.

Recall King's Visit
Behind him and Mrs. Roosevelt at the Hudson river family estate were memories of two smiling royal visitors who got their first introduction to that great American snack, the hot dog, at a Dutchess Hill picnic; who were personally chauffeured by the president in his manually-operated touring car over some eight miles of dusty cross roads; who peeled off in the heat of the afternoon and went swimming with them in their picture-quely-set tiled pool.

They also (the president and Mrs.

Roosevelt) remembered those first two terrifically hot days in Washington when everything went by protocol and the fair-skinned queen got sunburned despite her parasol.

The Roosevelt clan pulled out of Hyde Park at 10:30 this morning (daylight time) for "The Point" where future generals of the American army planned a colorful show for the president, who was to address them—and also the nation via the radio at 12:48 p. m. EDT.

Roosevelt Invited
There was a semblance of exhaustion on each side of the hands-across-the-sea meeting. There was no doubt but what their majesties were delighted with their Hyde Park visit. Also, there seemed to be no doubt but what they were anxious to get to that boat which will take them away from all of the Canadian-American enthusiastic pulling and hauling.

Last night, shortly before midnight, the president and Mrs. Roosevelt, together with the president's 84-year-old mother, Mrs. Sara Delano Roosevelt, had brought the king and queen down to their gaily painted special train and wished them Godspeed.

"We are sorry to lose you," said the first lady to Britain's vivacious queen. "We hope you will return soon."

Unquestionably, their majesties had extended the same invitation to President and Mrs. Roosevelt to visit London—with all the pomp and ceremony, and then some thrown in. Unpredictable as he is, the chief executive might decide to accept this invitation. World events and domestic political developments will probably decide the matter.

Former Resident, Returning After 50 Years Is Amazed At Multitude Of Changes

"Everything's so greatly changed here in New Castle," said Edward Fallon of Seattle, Wash., who is visiting his nephew, John D. Fallon, and his family of 710 Blaine street. Mr. Fallon did not make the trip this far east since he made the journey 50 years ago.

"New Castle consisted of a main street (West Washington street) with an old time bridge, spanning the west side river (Schenango) and the residential district running south. There were few homes on the north side and the present site of my nephew's residence was the midst of immense tree growth and woods. Main street was a dirt road with large jowly trees growing on either side. New Castle was an unusually busy little place. Most impressive is the fact that you residents here have such pretty homes. I thought that the Westminster college buildings and lawns were especially lovely."

Mr. Fallon, who is now 85, had married a girl born in Madras, India, whom he met in Victoria, British Columbia. Her father was a colonel in the Scotch army and at his death she made the cross continent journey from Washington to Europe to settle his estate. Upon her return, Mr. Fallon came east to make the return journey with her and it was at this time that he came to New Castle, one of the stops marking a period of 50 years ago.

He is one of the pioneer gold miners of the great northwest and is enjoying perfect health, which he says is due to the invigorating climate in the west. He has a thick head of wavy white hair, has all his own teeth and does not use glasses, even enjoying the motion pictures without their use. The former trip took a week and a half; and this time he came across the country in

three days to Chicago and one day out of there. His trip was immensely enjoyable, as he made comparison all the way of the former period and the present time. Most impressive was the fact that he could have his meals right on the train and also enjoy comfortable sleeping quarters. Stewardess nurses took especially good care of him and with all these conveniences he made the statement: "One would think that he was riding in a box car, if he took the trip I had 50 years ago, and even today the freight cars are much better, being more capably built and equipped better than the former coaches." At the time Mr. Fallon first went to Seattle the country was very young and Washington was just a territory. This hardy pioneer had had the opportunity of watching his home town and the northwest increase its value and population. His work has been that of a romanticist, going to make his home where the cry "Gold Strike" was heard. Nome, Alaska, Death Valley and California have been his homesteads and he has gathered sufficient material of true experiences to tell many breath-taking stories. Railroad building, tunnel construction and quartz mines have also formed the background for his work.

On his arrival in the west, Indians, pacified by the wise Chief Seattle, in whose honor a huge totem pole has been erected in the main square of that city, came to the settlements to trade priceless furs for the much desired "hops." Most amusing is his tale of the discovery of gold at the famous Dawson City section.

An Indian and at Scotchman, who were great friends and had a small fur trapping business together, attempted to uproot a huge tree to form a trap for the small furry animals, from which many persons made their living at that time. When they had upraised the tree, clinging to the roots were huge chunks of crude gold. Overjoyed at this wonderful discovery, the couple walked the 40 miles to the then Dawson City with their news. In less time than it takes to tell, persons had come from all over the world, including Africa, Australia and Europe.

Curious as to how much money this county has spent in the care of the eight insane aliens mentioned in the column on Friday, the engineer did a little research work in the court house and came up with some rather astounding figures.

The original mention came about as the result of a letter from the Welfare Department asking if the county would stand the expense of deporting the eight aliens to the countries of their citizenship. This would cost several thousand dollars.

The cost to Lawrence County since they have been in the insane hospitals is \$15,092. It is divided as follows: Patient No. 1, admitted December 17, 1919, cost to date \$3204. Patient No. 2, admitted December 17, 1919, total cost to date \$3204. Patient No. 3, admitted January 9, 1923, total cost to date \$2574. Patient No. 4, admitted January 9, 1923, total cost to date \$2574. Patient No. 5, admitted June 8, 1931, total cost to date \$1248. Patient No. 6, admitted April 4, 1934, total cost to date \$806. Patient No. 7, admitted June 8, 1934, total cost to date \$780. Patient No. 8, admitted January 12, 1935, total cost to date, \$702. No

costs are included in these figures. It develops that all of them are now in Torrence but the commissioners are convinced that other institutions contain patients of a similar classification. They also should be sent back to their native countries.

The commissioners also believe that the U. S. Immigration service should handle the deportation of these aliens. Where an alien is convicted of serious crime the government deports them.

The life expectancy of all of them will probably run an average of ten years which means a lot more cost unless they are sent back where they belong.

The county commissioners have a set of nice invitations on their desks which they probably will not be able to accept. On July 17-18-19 the National County Officers Association meets in Ogden, Utah, and

the officers of Wasatch County Utah are inviting the county officers of the nation to attend.

The final approval of the plans for the new addition to the court house, that of Judges W. Walter Braham and Thomas W. Dickey has been made and the next step is the preparation necessary to construction. All that is needed is the bids and the work can start.

Looks as though the term of criminal court would hardly last the week out next week. Of the fifteen bills presented by the grand jury three have already pleaded. A couple of others are expected to plead and the number of cases actually to be tried may not exceed 10.

DON'T GET A LOAN until you check this new plan

Read how you can borrow \$100 without endorsers if you can repay \$10.05 a month for 12 months. No credit inquiries of friends or relatives—No embarrassment or delay

THIS new loan plan makes it simple for you to figure how you can borrow what you need and how you can repay it. You get the money you need now and you repay in 2 to 18 months as best suits you. The faster you pay up your loan, the less it costs.

Suppose you need \$100 and can conveniently repay \$10.05 a month. Twelve installments of this amount will repay your loan in full, including all charges. Or suppose you can pay more each month—installments of \$18.46

each will pay you \$100 loan in full in six months. Or suppose you wish to pay less each month—\$7.27 a month for 18 months will also repay a \$100 loan.

Simple to borrow

All you do to get a Household Finance loan is acquaint us with your needs. No stocks or bonds are required. No credit inquiries made of friends or relatives. No need to ask others to sign the loan papers with you (married couples sign together). You get your loan

promptly and privately. Usually the money is ready for you the day after you apply.

Choose the plan that fits your budget

Locate the amount of cash you need in the loan table. Then read across, picking out the monthly payment which best fits your budget. See how you can make very small payments if you wish. Or you can pay larger installments and pay up sooner. Note how little your loan costs if you repay in a short time. A loan of \$100 repaid in four monthly installments costs \$7.60. And to get a loan you need no endorsers. You are spared the nuisance of asking others to guarantee your loan.

Study the table. Note the convenience of Household's new payment plan. Then phone or visit us for further information without obligation.

READ THIS GUARANTEE

We guarantee the total amount figured by using this table to be the full amount you will pay, where payments are made on schedule. You will pay less if you pay ahead of schedule. To know the total you pay on any loan, select the amount you need in the table. Read to the right, picking the monthly payment you wish to make. Then multiply this payment by the number of months given at the top of that column.

The commissioners also believe that the U. S. Immigration service should handle the deportation of these aliens. Where an alien is convicted of serious crime the government deports them.

The life expectancy of all of them will probably run an average of ten years which means a lot more cost unless they are sent back where they belong.

The county commissioners have a set of nice invitations on their desks which they probably will not be able to accept. On July 17-18-19 the National County Officers Association meets in Ogden, Utah, and

the officers of Wasatch County Utah are inviting the county officers of the nation to attend.

The final approval of the plans for the new addition to the court house, that of Judges W. Walter Braham and Thomas W. Dickey has been made and the next step is the preparation necessary to construction. All that is needed is the bids and the work can start.

Looks as though the term of criminal court would hardly last the week out next week. Of the fifteen bills presented by the grand jury three have already pleaded. A couple of others are expected to plead and the number of cases actually to be tried may not exceed 10.

Kowalik Hopes To Beat Genaro In Arena Tonight

Moran Battles Heck In Another Of Bouts Staged By Ex-Soldiers

MUDDY KURTZ BATTLES WEST

BOUITS TONIGHT

Sunny Horne, Niles, vs. Al Packard, Youngstown; 150 pounds. Baby Face Retardo, Ellwood City, vs. Walter Yanish, Pittsburgh; 112 pounds. Billy Reale, Princeton, vs. Johnny Green, Pittsburgh; 160 pounds. Wesley Rodgers, Grove City, vs. Jo Cimacca, Pittsburgh; 150 pounds. Jack Sawyer, Niles, vs. Frankie Pettit, Pittsburgh; 160 pounds. Muddy Kurtz, McKeesport, vs. Jimmie West, Pittsburgh; 147 pounds. Frankie Moran, New Castle, vs. Johnny Heck, Pittsburgh; 136 pounds. Frankie Genaro, Youngstown, vs. Steve Kowalik, McKeesport; 147 pounds.

Following two weeks intensive training, 16 fighters are ready to crawl through the hemp in the air-circled arena at 8:30 tonight to fling punches in eight battles, the feature of which will be a three-round set to between Frankie Genaro, the Golden Gloves welterweight champion of Youngstown and Steve Kowalik, McKeesport, conqueror of Ted Delarado, Golden Gloves 147-pounder of East Liverpool.

Genaro has traveled an undefeated pugilistic path here but his downfall may come tonight when he tackles the "Blonde Pole" according to Kowalik's friends. Kowalik was underdog when he stepped into the ring against Delarado but when the final round had been fought and the decision announced the verdict was bestowed upon Kowalik.

Moran Stiff Puncher

In a communication to the Jefferson A. C., which arranged the benefit for the Kahle-Ashton Post No. 8, Society of the 28th Division A. E. F., sponsors, the McKeesport puncher, promised to unloosen his heaviest artillery against Genaro. "I'll have my range-finders in fine shape and keyed to perfection," he asserted. If he can outfight the hard hitting Genaro, known for kayoes, he will be "top" here.

The Frankie Moran-Johnny Heck battle should be worth witnessing, if Heck lives up to pre-fight assertions. Johnny was said to have beaten Buzz Mooney, a feat accomplished also by Moran. It is doubtful, however, if Heck can match the southpaw in sock because Moran can flatten a foe with either hand, which time and again he has demonstrated here. Heck beat Mooney with cleverness.

Burlesque and Action

Burlesque intermingled with swings from the floor and ceiling will feature the Muddy Kurtz-Jimmie West whirl. Muddy has not yet failed to cause laughter and thrills and with West as his opponent, fans expect an outburst of both. The McKeesport one-man-circus shaded West at Rochester, recently and Jimmie hopes to reverse the situation tonight.

Jack Sawyer, the Niles "iron man" has yet to stage a drab fight here and while Frankie Pettit, Pittsburgh, never before fought here, the match-maker claims he will be capable of giving the Buckeye state middleweight a good fight. Wesley Rodgers, Grove City, swing artist and Jo Cimacca, Pittsburgh, should unfurl a lot of effort in their three-strut affair.

Farmer To Fight

Billy Reale toll-tiller from Princeton, battles Johnny Green, a "fighting Irishman" from Pittsburgh in another fight. It will be Green's first set to if he is another Regis O'Brien, which remains to be seen. Reale will have plenty beside farm chores to think about. Reale is rugged from laborious duty on the rural plot and hopes to add to his fistie prestige by winning.

Baby Face Larry Retardo, brother to the conscientious Nick, hopes to chalk up another pugilistic scalp to belt when he takes of Walter Yanish of Pittsburgh at 112 pounds and the curtain will go up with Sunny Horne of Niles, and Al Packard, Youngstown, both 150, furnishing the evening's event in the first tilt in the air-circled arena.

According to sponsors of the fight,

Wod And Nelson End First Playoff 18 Holes In National Open All Even

DENNY SHUTE BLOWS WIDE AND HANDSOME

By LAWTON CARVER

International News Service Sports Editor

PHILADELPHIA, June 12.—Staggering by this time as it winds its weary way over the Philadelphia Country Club course toward a conclusion that threatens to shatter all marathon records, the National Open golf championship today entered its second 18-hole playoff with Byron Nelson and Craig Wood as the lone survivors of all that has gone before.

Having broken the deadlock that existed between themselves and Herman Densmore Shute yesterday, when they blazed around in sub-par 68's to Herman Densmore's unflattering 76, they prepared to do against each other this morning the test that should end it all, with Nelson favored to win in a struggle.

Spectator Hit

They advanced to their position within a few swings of the thousands and the open crown crown is supposed to be worth after as wild an 18 yesterday as the oldest followers of the fairways could remember. They did everything but hang by their toes from the trees, and so did the 5,000 spectators, until finally one of the latter was nearly scalped by a screaming shot laced toward the 18th green by Wood.

After that confusion, they settled down to a good old fashioned stampee with nothing making much sense, including the newspapermen, spectators and officials who fell off the 18th green into traps, to scramble there while Nelson and Wood went stowing up a small order of golf history.

HERE AND THERE IN SPORTS' LAND

In addition to staging boxing, softball and ping-pong, the Jefferson A. C. today decided to enter baseball and has taken out a franchise for the East Side Redskins in the Lawrence County Baseball league. The team will be known as the Jefferson A. C. and will be managed by James J. Vessella, a former West Pittsburgh Garland pitcher. The team was accredited with 10 defeats when they entered the loop and it is probable they will not be able to crawl far up the ladder in the first half. However, with any weak spots patched the team hopes to make a big showing in the second half. The Jefferson A. C. will use Centennial field as a home field.

Syd Wooderson, foremost runner for Great Britain, has arrived to participate in the Princeton invitation meet. He hopes to be the first four minute miler. Byron Nelson and Craig Wood will play off a tie today for the National Open Golf championship in Philadelphia. Peter Lauch of Wynnewood, Pa., was chosen captain of the 1940 Princeton tennis team. Baseball stars have descended upon Cooperstown, N. Y., for the centennial celebration of the founding of the game. United States defeated Great Britain in polo, 9-4, with Tommy Hitchcock playing a star game for the United States.

Baseball scrapings...Duca at Sportsman's Park, St. Louis, home of the lowly Browns, run from \$1.78 down to 56 cents. Bobby Feller, Cleveland's sensational catcher has an unusually brilliant record considering the short time he has been in the majors. To date, his record reads 40 victories against 23 setbacks. George Selkirk, Yankee clubber, has taken the joy out of Joyce, Athletic pitcher. "Twinkletoes" stepped to the platter four times against Joyce and connected for four consecutive homers, this year. Thursday is the deadline for all trades between major league clubs, except those made via the waiver route. Tony Lazzeri, who was given the pink slip by the Giants, has no future plans. He is not worrying about the wolf knocking at his door. As a member of the Yankees, Push Em Up dragged down plenty of cabbage and stored it away for a rainy day.

Sports cocktail...During a meeting of the Texas Christian University board of directors, a ruling was made that no gridders shall wear the numeral 8 on their uniforms. Said number was worn by the agile Davey O'Brien, Tommy Loughran, the former light heavy

Canzoneri is all set to go abroad in July to tackle one Eric Boon, British lightie king. The guarantee is \$11,000 which is not bad. Clut owners and coaches will gather in Pittsburgh July 28-30, for the annual rules meeting of the National Professional grid loop.

Short short stories...Remember Olie Carnegie, who played here numerous times, years ago. The home run specialist is still at it. Church Ceremony For Kimes-Aiken Wedding Saturday

Prominent Couple United In Impressive Service By Rev. A. M. Stevenson

ELLWOOD CITY, June 12.—One of the outstanding June weddings was solemnized on Saturday afternoon at 3:30 o'clock in the First Presbyterian church when Miss Eleanor Virginia Kimes, daughter of Mr. and Mrs. Lee R. Kimes, of Wayne avenue, exchanged nuptial vows with Theron Edward Aiken, son of Mr. and Mrs. Harry Aiken, of Line avenue.

Using the impressive single ring ceremony, Rev. Arthur M. Stevenson, pastor, officiated in the presence of many relatives and friends of the couple, out of town guests coming from Sharon, New Castle, Pittsburgh and New Jersey. The church was beautifully decorated.

Preceding the ceremony, Miss Marjorie Streeter played appropriate nuptial selections and David Aiken, of Atlantic City, N. J., a brother of the bridegroom, sang two lovely selections, "Because" and "At Dawning."

The bride, given in marriage by her father, was beautiful in a stunning gown of silk net over white satin. Her illusion veil bordered with deep lace cascaded from a tiara of orange blossoms. She carried an arm cluster of calla lilies.

Three sisters of the bride, Misses Dorothy and Ruth Kimes, of Pittsburgh, and Betty Lee Kimes, of Ellwood, were the attendants, and they wore exquisite gowns of yellow, pink and blue embroidered organza fashioned identically and wore the same shade of flowers in their hair and carried colonial bouquets.

Little Mary Kathryn Kimes, niece of the bride, and Louise Aik, sister of the bridegroom, were the flower girls.

Clyde Gibson, Jr., served the bridegroom as best man and Stanley Wilson, Cecil Barlow, Charles Kiskick and Robert Aiken were the ushers.

A reception for the bridal party and immediate friends followed at the Ellwood City Country club with covers being arranged for fifty guests.

In the evening, an informal reception for intimate friends of the couple was held at the Kimes home, after which the couple departed on an eastern wedding trip. Returning home, they will reside in the Keller apartments, in Lawrence avenue.

Mr. and Mrs. Aiken are both graduates from the local high school, the bride with the class of '34 and the bridegroom with the class of '33. Mr. Aiken is employed at the National Tube company, and is secretary of the Board of Directors of the Ellwood City Country Club.

They are among the most popular members of the younger set in this city and have a wide circle of friends who join in wishing them much happiness. They have been feted at many lovely parties and presented with many beautiful gifts.

The tempting supper was served at 6 o'clock by a committee headed by Raymond Marshall, after which the hours were spent informally.

Mr. and Mrs. Carl Wolford and family, of Youngstown, and Frank Wilford, of Logan, Utah, and Rev. and Mrs. Ratslaff, of New Castle, were special guests.

A variety of diverting games and contests occupied the afternoon under the direction of the teachers with prizes going to Christina Taylor, Martha and Bobby Carey, Lena LeViere, Donald Welsh, Ruth Hall, Rev. Ratslaff and Roy Curry.

The women of the church served a delicious dinner to the 58 attending. Arrangements were in charge of David LeViere, superintendent.

Householder Clan Has Annual Reunion

ELLWOOD CITY, June 12.—One of the most enjoyable of the early picnics was the annual Householder reunion held on Saturday at Edgewood grove, on the Ellwood-New Brighton road, with a large representation of the family in attendance.

After a delectable picnic dinner was enjoyed at noon, games and contests were enjoyed with prizes going to Shirley Teets, Clifford, LeRoy and Arlene Teets, Roy Pander and Howard Deemer.

Nice awards were given to Mrs. George Householder, as the oldest person attending; Mr. and Mrs. Jacob Smith, oldest couple; Mr. and Mrs. Clyde Deemer, largest family; Mr. and Mrs. Clair Deemer, youngest married couple; and Shirley Householder, the youngest child.

In 1940, the reunion will be held on the second Saturday of June at the same place.

Cora Mae Javens Becomes Bride Of William Davidson

ELLWOOD CITY, June 12.—Mr. and Mrs. William M. Davidson are spending their wedding trip in Cleveland following their marriage performed at 7 o'clock on Friday evening by Rev. W. E. Minter, pastor of the First U. P. church.

The bride was Cora Mae Javens, daughter of Mr. and Mrs. Herbert Javens, of the Ellwood-New Castle road and the bridegroom is a son of Mr. and Mrs. George Davidson, of Wayne avenue.

They attended the local high school and Geneva college and Mrs. Davidson is a teacher in the primary department of Hartman school and Mr. Davidson is an employee of the National Tube company. They will reside in their newly erected home, in East Line avenue.

Ottober-Peters Wedding Saturday

Rev. D. N. Thomas Performs Ceremony At Bride's Home In Summit Avenue

ELLWOOD CITY, June 12.—A pretty home wedding was solemnized on Saturday afternoon when Miss Ethel B. Ottober, daughter of Mr. and Mrs. James Ottober of Summit avenue, was united in holy wedlock to William G. Peters, son of Mr. and Mrs. Lester Peters of the Ellwood-New Brighton road.

Rev. D. N. Thomas, pastor of the Free Methodist church, performed the ceremony in the presence of quite a number of relatives and friends. For the occasion, the home was prettily decorated with garden flowers.

The bride was most attractive in a white ensemble and she carried a bridal bouquet. Amelia Peters was her only attendant and she wore a becoming ensemble and also carried flowers.

James Schell served the bridegroom as best man.

An informal reception followed at the home after which the couple departed on a wedding trip. Returning home, they will reside in this city where the bridegroom is employed.

United States Building Up Air Strength

Aviation Expert Predicts
Finest Air Force In
World In Two Years

INSURES SAFETY OF THE AMERICAS

By LEON W. SHLOSS
I. N. S. Aviation Writer

WASHINGTON, D. C.—The peace of the world has been threatened by a machine invented by two unsuspecting bicycle makers—the flying machine.

When Wilbur and Orville Wright only 36 years ago contrived the first airplane, they could not have divined that their invention, possessed in overwhelming number by one country in 1939 would bring the world to the brink of a conflict unimaginably more catastrophic than the World War.

Yet that happened. At the Historic Munich Conference Chancellor Adolph Hitler, master over an unsurpassable air force, demanded and received the Sudetenland, on penalty of looting Europe's unprotected capitals a hall of death-dealing aerial bombs.

That challenge—and subsequent challenges by the totalitarian powers—has been accepted by the United States, to assure the safety of the Western Hemisphere.

To meet the challenge, the President, the War Department, and Congress decided this country must possess within two years a force of the flying machines that revolutionized warfare, equal or superior to any in the world. That meant Germany which, according to all available information, has outstripped all nations in air might.

What Must Be Done
To possess such an air force the United States must, according to military experts, accomplish the following:

- Build 3,000 military airplanes.
- Train 4,000 pilots.
- Teach flying to 20,000 college students annually.
- Train 16,000 mechanics and technicians.
- Establish five new Air Corps bases and enlarge others.
- Greatly expand aeronautical research.

Build barracks for the augmented air force.

Double the trained factory personnel—now 27,000—in the aircraft manufacturing industry.

Expenditure of \$300,000,000 has been authorized by Congress for the job. Because the Administration wants speed, \$50,000,000 was made available immediately. The remainder will be held up for some time by an oversight in drafting the rearmament legislation. Air Corps funds were authorized under a 1926 law which requires an interim of 90 days between the advertising and the opening of bids. The War Department feels legislation is necessary to eliminate this "blind spot." Meanwhile, were it not for the \$50,000,000 available the Army could not have purchased a single airplane before August 1.

Even while the Munich negotiations were "surrendering" to Hitler, President Roosevelt called the country's airplane manufacturers to Washington and laid before them a plan to build 10,000 to 12,000 airplanes in two years.

The manufacturers convinced Mr. Roosevelt of the economic unfeasibility of such a grandiose program. They explained that factory properties would have to be tremendously enlarged to make such a program possible, and would deteriorate rapidly through enforced idleness after the planes were built. They pointed out that such a magnified construction program, carried out in such a short time, would inevitably place in the air hundreds of unsafe airplanes, with resultant heavy loss of life during pilot training. The industry, after a short boom, would quickly sink into a deep depression, from which it might never recover, they said.

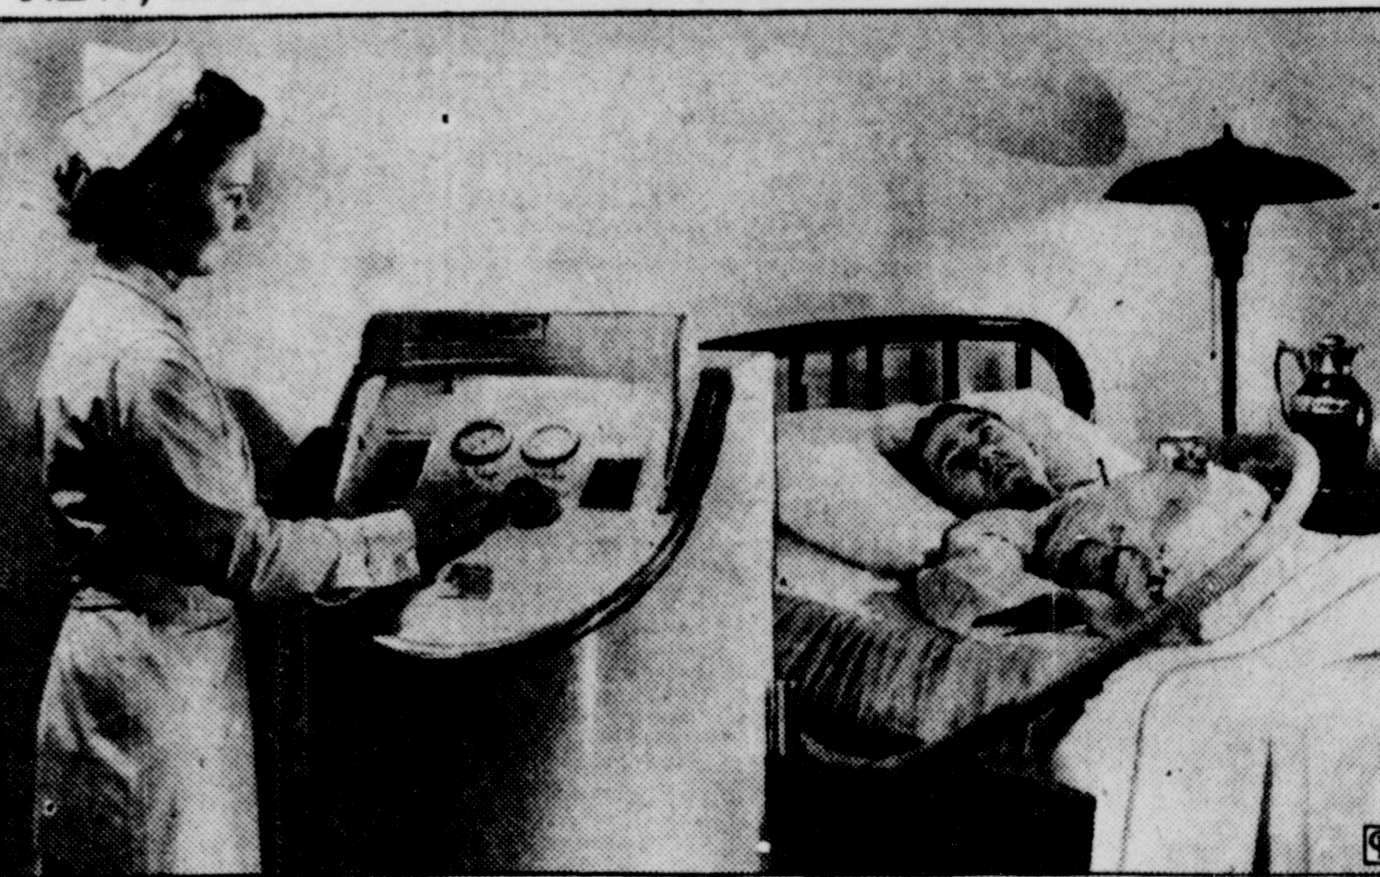

Out of those conferences grew the outline which finally was shaped into the plane building program projected currently. And out of his program have developed—and are developing daily—thousands of problems which must be solved.

The task is a colossal one, but the army, the industry, the colleges, the civil aeronautics authority, the private flying schools, and all others concerned have "dug in." They all say: "This country shall have the finest air force in the world—in two years."

Sunday morning, two beautiful silk flags, the Christian and American, were presented to the First Baptist church, the Boys Scout Troop of the church taking part. Albert Klingensmith, scoutmaster, made the presentation address, on behalf of the Sunday School, and Dr. Heaton, the pastor, expressed thanks, on behalf of the church. Mrs. Albert Klingensmith, of North Mercer street, furnished material and made the Christian flag.

NEW, LIGHT RESPIRATOR HAILED AS IMPROVEMENT

A new, light respirator, developed by Drs. B. Leibel and G. Edward Hall of Bunting Institute, Toronto, Canada, is being hailed by physicians as a boon to sufferers from paralysis of the respiratory system. The new respirator surrounds only the thorax and abdomen, leaving the arms and legs free for splinting—especially useful in infantile paralysis cases. The Leibel-Hall respirator is also so light the patient may be moved about in the bed. It is hand, as well as motor, operated.

IOWA GETS EVEN WITH HITLER BY ESTATE TAXES

(International News Service)
DES MOINES, Ia.—German relatives of wealthy, deceased Iowans will find—should they be in line for inheritances from Iowa in the future—that the state's 1939 legislature pulled a tit-for-tat trick on Adolph Hitler.

The legislators took official cognizance of the fact that Iowa inheritors of German estates are unable to drag even a penny from the Fatherland.

They passed a law prohibiting Germans from dragging even a penny out of Iowa-land.

Germany is not mentioned specifically in the act but Germans, in effect, are the only ones on Iowa's list of tax payers.

The act provides that foreign inheritors of Iowa estates shall be assessed inheritance taxes equal to those assessed Iowa inheritors of foreign estates.

Germany is the only nation with a 100 per cent tax on inheritances destined to leave the country.

LOW FEE NURSING IS ADVOCATED AT NURSES MEETING

(International News Service)
DENVER—Low cost nursing on a basis similar to group medicine and vocational guidance in high schools and colleges for young women planning nursing careers were advocated at the recent joint convention of the Colorado State Nurses' association and the Colorado League of Nursing Education.

Miss Lydia W. Anderson, executive secretary of the Community Nursing Bureau of Detroit, Mich., told the meeting that high nursing fees could be reduced by placing nurses on an annual salary basis. She suggested practical nurses for sick patients at their homes at low cost, with graduate nurses to look in on such cases on an hourly basis to do technical work requiring trained skill.

PROPOSES LAW TO BAR REFUSAL OF MARRIAGE BIDS

(International News Service)
DOVER, Del.—A lovelorn Newport resident who doesn't like the proposed bachelor's tax bill wants a law passed forbidding women to turn down marriage proposals.

"I have my eye on a rich gal near Wilmington," the suitor wrote the house of representatives, "and if you do pass this bachelor's tax bill, put a rider on it, making compulsory for the lady to marry the gent or provide for him."

"Bachelors, being footloose," continued the writer, "you will have to catch them. I am a bachelor, and if the bill passes, I also pass to Pennsylvania which place suits me as well as Delaware."

Says Milk Price May Be Raised

Shaw Returns From Conference Held In Pittsburgh By Producers

Possibilities of a raise in retail milk prices are seen as the result of the conference held in Pittsburgh last week by the Milk Control Board and the Keystone Milk Producers' Association, according to the president, John B. Shaw.

"We believe the board is going to make some adjustment of the present ruinous price to farmers," said Mr. Shaw. "The conference was arranged through the Keystone Milk Producers Association and after we got the thing started a number of other organizations joined with us in protesting the present prices."

A number of milk producers of this county attended the conference along with the officers of the association.

GET-RICH-QUICK RACKET HAS NEW TURN IN LONDON

(International News Service)
LONDON—The latest get-rich-quick racket in London now is to sell ten shilling bills (\$2 for 30 (\$7)—and the purchasers are even willing to pay more.

When screen and stage stars make personal appearances in towns near London, the racketeers approach the stars for their autograph, and find very conveniently that the only paper they have in their possession is a bank note. Will the stars oblige?

The stage or screen personality scribbles his or her signature on the banknote and, in doing so, sends' up its value by 300 per cent.

For the modern craze for queer collections is still on and the racketeers find a ready market for their autographed money.

This new "profession" was started some time ago when a man for a joke got a leading film star to autograph a ten shilling bill.

To his surprise it sold immediately for fifteen shillings (\$4) and came into the hands of an enterprising bar tender who resold it to a client for thirty shillings.

DIETICIAN STATES POOR PEOPLE EAT AS WELL AS RICH

(International News Service)
PHILADELPHIA.—Poor persons eat as well or better than rich ones. That consolation is extended by Mrs. Anna D. Bowes, director of the Philadelphia Child Health society's nutritional division. Her findings were based on analysis of diets of 189 lower-bracket patients and 72 of higher income level.

The apparent contradiction springs from well-intentioned but erroneous taboos, Mrs. Bowes pointed out. When you're poor, you don't have to be fashionable about food, she elucidated.

For example, the dietitian said, some women shun potatoes because they're fattening and thus miss a chance to absorb lots of iron and vitamins B, C, and G. They avoid milk for the same reason and miss out on calcium, phosphorus and Vitamin D.

Other comparisons in which the

poor have the edge show that the rich eat lettuce, calves liver and drink orange juice. Their less fortunate brethren dine on turnip greens, mustard greens, beef liver, and eat the whole orange, Mrs. Bowes contended.

LAST OF ANCIENT COD FISHING FLEET SOLD TO SWEDEN

(International News Service)
LILLE.—The last of the Flanders Cod Fishing fleet is gone and the industry is no more.

The little trawler Saint John, last boat of the proud fleet which once ruled the northern seas, was recently sold to Sweden, one of the countries responsible for the fleet's disappearance.

The famed cod fishing industry, based on its wandering trawlers which roamed far from home waters reaping millions of tons of cod from the oceans, originated in the late 17th century and grew at a rapid

pace until 1860, there were 130 boats in the system.

But the Scandinavian steam trawlers appeared on the scene about the time and gradually replaced the sailing boats of France until by 1920 only nine boats remained. These, to reduce expenses, were gradually sold or de-commissioned until last month, the last vessel of the fleet, went down the auctioneer's way and was turned over to Sweden.

MAKES VIOLINS OUT OF WASTE PAPER AND RAGS

(International News Service)
RIDGEFIELD, Wash.—Violins out of waste paper and rags. That is the fascinating hobby of William T. Hoyt, cabinet maker of Ridgefield.

Music from these crudely-made instruments is comparable to the finest violin, next to a Stradivarius, according to Hoyt.

Newspapers, rags, cartons, all are dumped into a compressor, one layer at a time and then pressed into shape in a homemade mold. Hoyt claimed that he dreamed the whole process one night and that it worked out exactly.
